

LearningCents Bank By LearningCents

The colorful, creative, kid-friendly LearningCents Bank™ helps families empower children to be smart consumers, good savers and contributors to the community. The patented LearningCents Bank has three large color-coded compartments for Spend, Save and Give. Now kids can organize money and gift cards in one special place and it is translucent so kids can see their money grow. Also includes a dry-erase pen to track money or goals on the dry-erase lids, alphabet stickers to personalize their bank and "sensible" tips for parents for establishing and allocating an allowance.
